

Indane Gas

Indane Gas Booking Status Online Check:

IVR and SMS: To check the [indane gas booking](#) status, one can call the local distributor and quote your consumer number. A consumer uses the IVR facility to check the status of the booking in an effective way. It is important to dial the number of the distributor to avail the number of options provided to the users.

The IVR system would prompt the user to enter the requisite consumer code which would help it to identify the user. Once above task is accomplished,

it is imperative to enter the gas booking number which is important to track the request for a particular gas cylinder.

Suffix and prefix alphabets play a very important role in the booking of the gas cylinders. It is important to press the 1 and 2 digits for subsequent information and checking the status.

To obtain information about the status through SMS, it is important to use the word IOC which is followed by the STD code along with the number of the distributor.

To ascertain the exact status, it is also important to enter the consumer number which would go a long way in finding the exact indane gas booking status.

It is essential to register the mobile number to accomplish the task without any hiccups. Once registration is done it is easy to send SMS and obtain the status in an effective manner.
